

Moments music: Kari Mäkelä, lyrics: Katie Wills

Verse 1/

My darling, loving you was simple
Something in the way you smiled
My darling, every bright morning shined for
You and I, we burned so bright

Verse 2/

Each day I, laughed a little louder
Something in your voice that sounded
Angelic, every inch was soothing
Where did those moments go

Chorus/

Once a fool and twice the heartbreak
Wishing for all, the starlight
And in my dreams, you would appear to me
In every moment, you were so real

Once a love and twice the broken
Wishing for all, the moonlight
In another life, you're standing next to me
In every moment, we were free

Verse 3/

My darling, loving you would kill me
Something in those saddened tears
My darling, every evening darkened
Oceans swept away your voice

Verse 4/

Each day I, walked the road less travelled
Footprints washed away the light
I prayed that, every hour that chimed by
Those moments would return to me

Chorus repeats again
